## **Corporate News Announcement - FRENER & REIFER Holding AG**

### **FRENER & REIFER has been commissioned with the design engineering, fabrication and installation of the metal and glass facade for the new headquarters of "Rischart's Backhaus" in Munich**

Rischart's Backhaus is a culinary institution in Munich. The traditional bakery business run by the Müller-Rischart family has a history going back almost 140 years and 15 sales outlets in the best locations in the city.

In future, the company will bake its "Brez'n", "Krapfen", "Stollen" and other items in one of the most modern baking halls in Europe. The new company headquarters is located above the Oktoberfest meadows on the Theresienhöhe. The total area of over 25,000m<sup>2</sup> will feature a glazed bakehouse, office space, a hotel area and a customer experience world, as well as company flats for employees.

The design by the Munich architectural firm Kiessler will replace their own current headquarters building. FRENER & REIFER GmbH, Bressanone/South Tyrol, was commissioned with the design-engineering, fabrication and installation of the entire metal/glass facade in stick system construction.

"As a Munich-based holding company, we are of course particularly pleased to have won a project directly in our neighborhood with this contract," says Dr. Andrea Borgato, CEO of FRENER & REIFER Holding AG. "We are proud that we are currently realizing two significant facade projects in Munich simultaneously, Rischart's Backhaus and SAP Garden.

### **About FRENER & REIFER Holding AG:**

FRENER & REIFER Holding AG is the parent company of an international group of companies focusing on high-end bespoke facade construction, sustainable building technology and innovative components. The company is one of the world's leading suppliers of high-quality, technically sophisticated metal/glass facades and is a full service provider for the implementation of exclusive building envelopes, from development, design and project planning to on-site installation. In collaboration with renowned architects such as Sir Norman Foster, Kenzo Tange and Daniel Libeskind, the group has realised exclusive and demanding projects such as the Museum of Modern Art (MoMA), the IOC headquarters and the Steve Jobs Theater.

The bond of FRENER & REIFER Holding AG (WKN: A2YN6Y; ISIN: DE000A2YN6Y5) is listed on the Munich Stock Exchange.
